What is AdjusterConsole?

AdjusterConsole is an innovative software that boosts insurance & warranty claims processing efficiency. It automates tasks like note-taking and SOP execution, streamlining workflows and reducing errors.
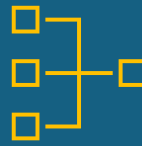

By consolidating essential information into a single interface, it enables quick access and decision-making.

With a user-friendly design and customizable features, AdjusterConsole adapts to organizational needs, ensuring accurate claims management and improving customer satisfaction.

Discover the Key Benefits of Simplified Claims Management

Streamlined Workflows
Automates routine tasks, speeding up claims processing & reducing workloads

Task Automation
Handles note-taking, SOP execution, and more, minimizing manual effort.

Centralized Information
Consolidates all essential data into one interface for quick access.

Error Reduction
Automation and standardizations leads to fewer mistakes in your claims processing.

Unlimited Scalability
AdjusterConsole scales effortlessly with your organization, supporting more users, claims, & integrations.

No Privacy or Security Leaks
By design, no personal information is entered into the system, making data security a non-issue

Quick & Easy Onboarding
We do 90% of the set-up for you, plus AdjusterConsole is quick & easy to learn!
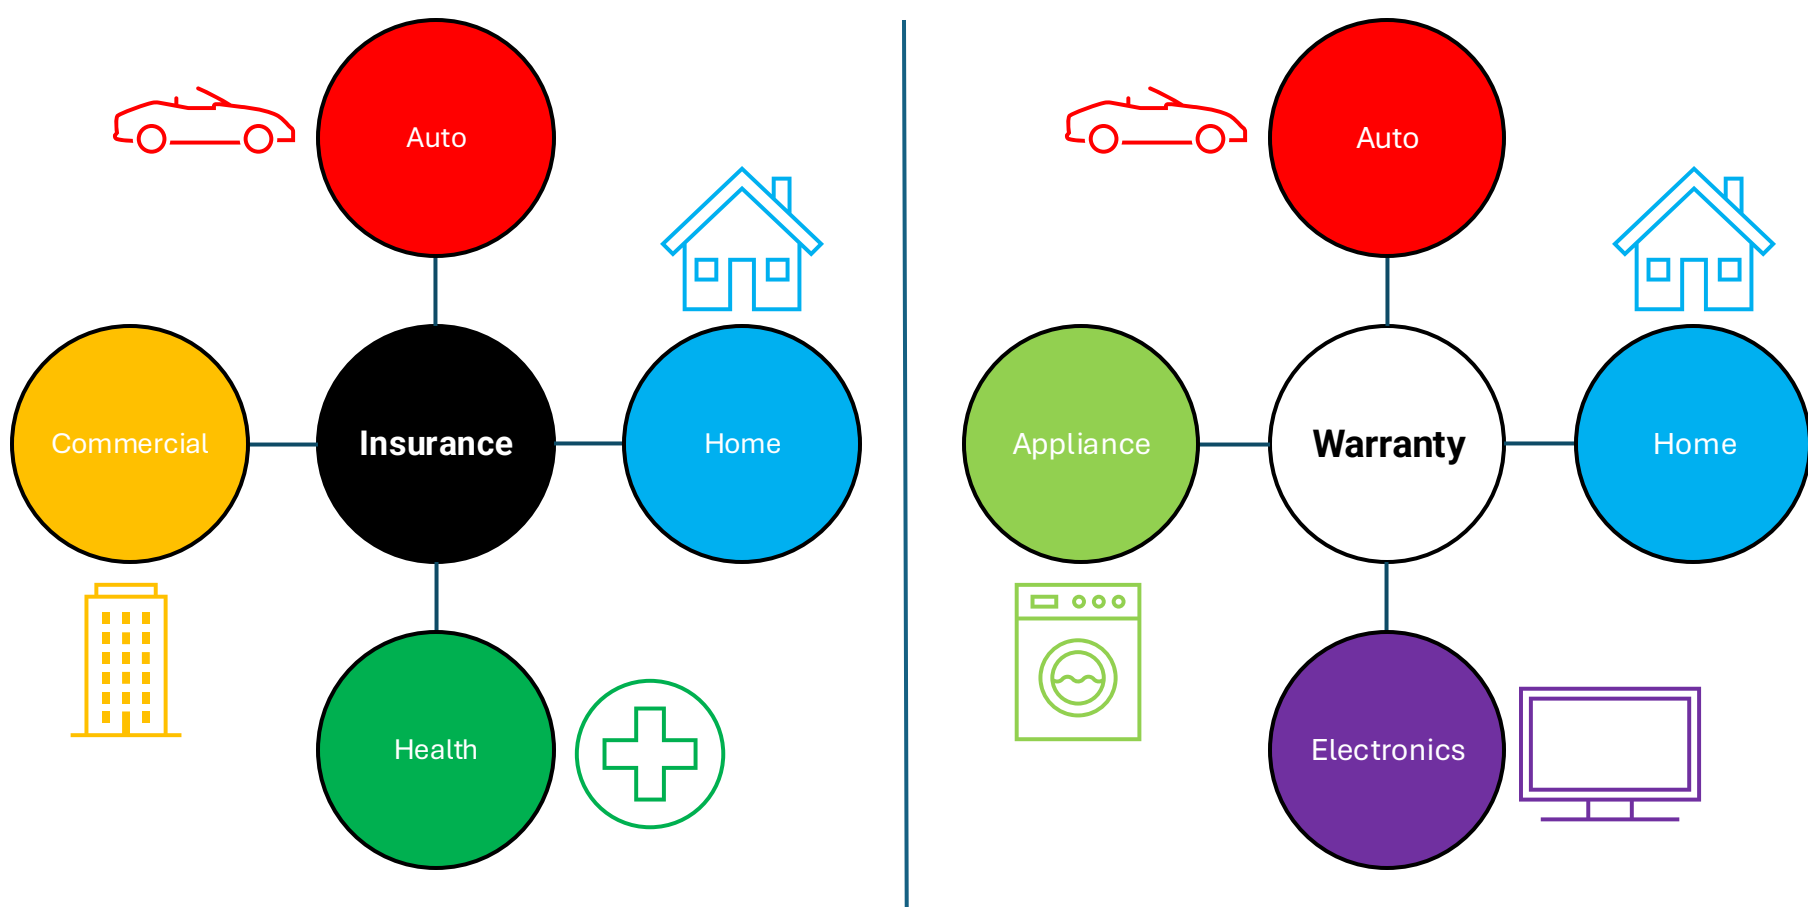

Improved Customer Satisfaction
⭐⭐⭐
Faster & more accurate processing improves your customer's satisfaction.

About Us

AdjusterConsole was founded by Jesse Williams, a warranty claims insider, who noticed the inefficiencies in his claims processing and developed a solution to increase his own productivity.

He designed and developed an early version of AdjusterConsole in his spare time and saw an immediate improvement in his efficiency.

A light bulb went on and he quickly began iterating on his original design and developed a program that could be used to improve productivity for both the insurance and warranty industries.
